- (xi) Additional 10/20 meter area beyond the exterior limit of regulated area shall be included in the survey plan for better understanding.

1.4. Conditions to be observed during survey:

- (i) Establishing precise and adequately timed Ground Control Points (GCP) using Total station with DGPS. OR the ROAV should be enabled with RTK kit for precise geographic location.
- (ii) Aerial Photography capture High Resolution ≤ 10 cm or less GSD Aerial Imagery should be captured for the entire region. The photography shall be collected utilizing a direct digital aerial mapping.
- (iii) The digital aerial camera system must be equipped with GPS and inertial measurement unit (IMU) systems. As ASI envisages completing the Project as soon as possible, the preference shall be given to Aerial Photography with modern sensors and thereby minimizing the Ground control without affecting quality of deliverables.
- (iv) Photography shall not be taken when the ground is obscured by snow, haze, fog, dust, or when cloud shadows shall appear on more than five percent (5%) of the area in any one photo.
- (v) The proposed approach to aerial photography acquisition should outline the respondent's intended flight plan including proposed date and time of photography, flight height, scale, flight lines, end lap and side lap, planned aerial equipment, materials, and relevant quality control procedures.
- (vi) Crab must not exceed five-degrees between any two consecutive flights, nor more than three degrees on anyone flight line. The aerial acquisition shall extend two exposures beyond the mapping limits to obtain full or the photo images and to reach pre-targeted ground control points, as necessary.
- (vii) Full Analytical Aerial Triangulation (FAAT) techniques shall be used in conjunction with ground control to establish a consistent horizontal datum for the entire project area. The bidder should satisfy himself regarding:
 - (a) Gaps in stereo coverage
 - (b) Differentially corrected GNSS/GPS and IMU data of exposure stations.
 - (c) Imaging of pre-pointed targets on aerial digital photographs.
 - (d) Differentially corrected GNSS/GPS data of pre-pointed controls.
 - (e) Image characteristics including ground sampling distance of aerial digital photography data.
- (viii) Geo referencing & Creation of Ortho Photo, DEM, Contours, for the entire project area should be created to support the generation ≤ 10 cm GSD ortho photos. The contour intervals of the area surveyed should be at least 0.5 m. Apart from the topographic, features captured during feature extraction in Stereo mode stage (streams, drainage, embankments, raised field bunds, roads, railways, water-bodies etc.),
- (ix) Break lines shall also be captured comprehensively wherever slope changes are visible in stereo model due to complicated terrains or man-made structures. Proper use of hard and soft break lines shall be made in DTM editing.
- (x) DTM points shall be captured automatically, semi-automatically or manually, as per the condition of the terrain and land use / land cover. It is required to produce digital colour orthophoto images for the entire Area of Interest in exactly ≤ 10 CM GSD native pixel resolutions.

- (xi) Orthophoto files must have no overlap and must be precisely edge matched and contrast and tone balanced so as to appear to be a continuous photographic image over the entire AOI. Upon completion of the aerial photography, and as soon as possible afterwards, the bidder shall provide with one or more sample digital image(s) in raw tiff format for overall image quality verification.
- (xii) The Images procured shall be Tonal balanced, mosaic ked and feature enhanced for achieving the best result for the vectorization. All ground positions determined shall be in the common reference system that is WGS84 Datum and UTM Projection. Final values shall be in meter and 2 places of decimal.
- (xiii) As far as possible Differential Global Positioning System (DGPS) instruments shall be used for collection of Ground Control Planning (GCP), and all DGPS equipment must be set-in to GCS –World Geodetic System 1984 (WGS84) Datum uniformly.
- (xiv) RAW and post-processed DGPS readings along with original source file for each location shall be submitted. As soon as the work is completed, in case to TS, original downloaded file and a CSV file must be submitted along with raw data clearly depicting the occupies station, back station and the co-ordinates in NEZ format.
- (xv) On receipt of the work order, the firm should commence the work within 7 days without fail.
- (xvi) Before finalizing, the draft site plans will have to be show to the Superintending Archaeologist, Archaeological Survey of India, Jodhpur Circle for approval.

1.5. Derivable:

1.5.1. Hard Copy Maps:

- (i) The bidder shall submit key plan of the site in 1:1000 scale in Hard Copy. All plans, indicating the contour lines, demarcating all permanent features as mentioned above. Contour Plan with contour drawn at 0.5m interval for specific feature.
- (ii) All the maps and drawings should be prepared in digitized forms using Inkjet / Pen plotter and standard computer software like Auto Cad (latest version) on standard A0 size polyester base film.
- (iii) Contour maps at site – The grids for the survey work shall be established in N-S & E-W direction (Corresponding to magnetic North) and the survey reference shall be spheroid WGS 84.
- (iv) The bidder shall submit three hard copies and two soft copies in CD/ DVD / Pen drive of all draft reports for review and approval.
- (v) After approval, specified prints of all the final maps on polyester base film/ high quality paper along with two sets in soft format in a CD/ DVD / Pen drive shall be submitted.

1.5.2. Drawings

- (i) All drawings shall be prepared on Auto CAD. The Auto CAD drawings shall have different layers for different features as mentioned above and in consultation with the officer-In-Charge.

2.32 Instructions for Online Bid Submission

The Bidders are required to submit soft copies of their Bids electronically on the CPP Portal, using valid Digital Signature Certificates. The instructions given below are meant to assist the Bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their Bids online on the CPP Portal.

More information useful for submitting online Bids on the CPP Portal may be obtained at: <https://eprocure.dov.in/eprocure/app>.

2.33 REGISTRATION

- 1) Bidders are required to enrol on the e-Procurement module of the Central Public Procurement Portal (URL: <https://eprocure.gov.in/eprocure/app>) by clicking on the link "**Online Bidder Enrolment**" on the CPP Portal which is free of charge.
- 2) As part of the enrolment process, the Bidders will be required to choose a unique username and assign a password for their accounts.
- 3) Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.
- 4) Upon enrolment, the Bidders will be required to register their valid Digital Signature Certificate (Class II or. Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g.Sify I NCode I EMudhra etc.), with their profile.
- 5) Only one valid DSC should be registered by a Bidder. Please note that the Bidders are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.
- 6) Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / e-Token.

2.34 SEARCHING FOR TENDER DOCUMENTS

- 1) There are various search options built in the CPP Portal, to facilitate Bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the Bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.
- 2) Once the Bidders have selected the tenders they are interested in, they may download the required documents I tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the Bidders through SMS/ e-mail in case there is any corrigendum issued to the tender document.
- 3) The Bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.

2.35 PREPARATION OF BIDS

- 1) Bidder should take into account any corrigendum published on the tender document before submitting their Bids.
- 2) Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the Bid. Please note the number of covers in which the bid documents have to be submitted, the number of

- documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the Bid.
- 3) Bidder, in advance, should get ready the Bid documents to be submitted as indicated in the tender document/ schedule and generally, they can be in PDF / XLS / RAR / DWF/JPG formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.
 - 4) To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every Bid, a provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the Bidders. Bidders can use "My Space" or "Other Important Documents" area available to them to upload such documents. These documents may be directly submitted from the "My Space" area while submitting a Bid, and need not be uploaded again and again. This will lead to a reduction in the time required for Bid submission process.

2.36 SUBMISSION OF BIDS

- 1) Bidder should log into the site well in advance for bid submission so that they can upload the Bid in time i.e. on or before the Bid submission time. Bidder will be responsible for any delay due to other issues.
- 2) The Bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.
- 3) Bidder has to select the payment option as "offline" to pay the tender fee/ EMD as applicable and enter details of the instrument.
- 4) Bidder should prepare the EMD as per the instructions specified in the tender document. The original should be posted/ couriered/ given in person to the concerned official, latest by the last date of Bid submission or as specified in the tender documents. The details of the DD, physically sent, should tally with the details available in the scanned copy and the data entered online during Bid submission time. Otherwise the uploaded bid will be rejected.
- 5) Bidders are requested to note that they should necessarily submit their financial Bids in the format provided and no other format is acceptable. If the price Bid has been given as a standard BOQ format with the tender document, then the same is to be downloaded and to be filled by all the Bidders. Bidders are required to download the BOQ file, open it and complete the white colored (unprotected) cells with their respective financial quotes and other details (such as name of the Bidder). No other cells should be changed. Once the details have been completed, the Bidder should save it and submit it online, without changing the file name, if the BOQ file is found to be modified by the Bidder, the bid will be rejected.
- 6) The server time (which is displayed on the Bidder's dashboard) will be considered as the standard time for referencing the deadlines for submission of the Bids by the Bidders opening of Bid etc. The Bidders should follow this time during Bid submission.
- 7) All the documents being submitted by the Bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized person until the time of Bid opening. The confidentiality of the Bids is maintained using the secured Layer 128 bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further, this key is subjected to asymmetric encryption using buyer/bid opener's public keys. Overall the uploaded tender documents become readable only after the tender opening by the authorized bid openers.
- 8) The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

- 9) Upon the successful and timely submission of bids (i.e. after clicking Freeze Bid submission in the portal), the portal will give a successful bid submission message & a bid summary will be displayed with the bid No. and the date and time of submission of the bid with all other relevant details.
- 10) The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. The acknowledgement may be used as an entry pass for any bid opening meetings.
- 11) The Bidders should ensure that the documents scanned/ uploaded must be clear and readable.

2.37 ASSISTANCE TO BIDDERS
