Tender No: 24 / 2015-16 F.No 4/79/JDH/T&P/2015-16

Chapter 1 Background and Scope

A. Introduction

Chittaurgarh in Rajasthan is a famous fort. The Sisodia rulers of the fort defended with valour against the invaders during medieval period. They built a long fort of about 7 km long and 2 km wide, with fortifications running to about 12 km. The fort is built on the flat summit of a whale shaped hillock. Within the fort there are numerous temples, palaces, havelis, ruins, and more than 80 water bodies. There is a small habitation within the fort. It is a World Heritage Site under the six Hill Forts of Rajasthan.

Archaeological Survey of India (ASI) is planning to prepare an accurate topographic map of the fort, including the contour, and the surrounding slopes of the hillock using Total Station and DGPS. The area within the fortification is about 600 Ha. All modern topographical features like houses, buildings, roads, pathways, power/telephone lines, forests and archaeological features like temples, fortifications, gateways, palaces, havelis, ruins, exposed structures, reservoirs, walls, etc need to be plotted. This map will be used for future planning of the development of the fort and collecting data for providing facilities.

Tenders are invited from reputed and experienced firms fulfilling the eligibility conditions to conduct the survey as per the terms and conditions given below.

B. Scope of Work

General

1. The scope of work includes the Topographical Survey of Chittaurgarh fort about 600 ha of at a scale of 1:4000 with a 20m x 20 m grid with a contour interval of 0.5 m.
2. The Chittaurgarh fort for this work means the entire area bound by the fortifications and the three approaches to it from the Padal pole and Ram Pole, the pathway leading down from Suraj pole and Lakota Bari. All the features as given below and aligned along these approaches should be mapped.
3. *The area also includes the slopes of the hill up to the foothills. However no detailed mapping is required for the slopes except drawing the alignment of the foothill and incorporating a contouring in 50m interval of the slopes in between the fortification and the foothill is necessary. See attached map for a general understanding of the work.*
4. The Survey should plot all modern topographical features like houses, buildings, roads, pathways, power/telephone lines, forests and archaeological features like temples, fortifications, gateways, palaces, havelis, ruins, exposed structures, reservoirs, walls, boundary/compound walls, fencing etc and any other tangible features may be left out in the above list but pointed out in the field, including

the internal plan of the archaeological features like temples, palaces, ruins etc either by instrument wherever possible or by tape as the case may be. The alignment (s) of the fortification should also be plotted as accurately as possible.

5. Superimposing/Plotting of Cadastral map on the TS map.
6. Fixing of permanent bench marks (in Stone pillar embedded in PCC) at least 5 points with the AMS levels engraved on the stone pillars.
7. Plotting on the site the Survey numbers held by ASI. Where there is agglomeration of Survey Numbers, they may be treated as one consolidated block and the block may be marked on the ground.

Contouring

1. The bidder shall carry out spot level surveying on all traverse stations and on salient points located at random over the area (ground points). Contours are to be interpolated at 0.5m intervals after the above points are plotted.
2. The contours shall not be just interpolated but properly surveyed on the ground so that features falling between the two successive levels are also picked up. Sufficient points properly distributed over the entire area shall be located and levels taken so that accurate contouring can be done at places of sharp curvature or abrupt change in direction and elevation, points selected shall be close to each other. Salient points on ridge lines and valley lines shall also be measured.

Procedure for Survey

1. The survey procedure to be followed is Total Station and DGPS.

Total Station Survey

1. Follow the procedure detailed as mentioned in DGPS survey. Each BP must be fixed from at least 2 known locations.
2. Geo-reference / plot the data using GCPs. GCPs shall be collected using dual frequency DGPS receivers in real-time as per procedure detailed above in DGPS survey.
3. The accuracy desired is 5 mm/km and angles to $1^\circ / 360^\circ$.
4. The distance between the Total Station and the target shall not be more than 100 m.

DGPS Survey

1. The Survey shall be carried along the fort area which is invariably shown by the concerned official of Chennai Port Trust with reference to the layout maps.
2. The survey should preferably be started from the first BP (Base Point) which is well defined.
3. In case real-time DGPS rovers are used, the Dual Frequency DGPS can be used alone and reading taken when accuracy is within 25 cm.
4. The height above Mean Sea Level (MSL) shall also be recorded for location.

Conditions to be observed for Survey

1. As far as possible similar DGPS instruments shall be used for collection of GCPs and all DGPS equipment must be set-in to GCS –WGS84 Datum uniformly.

2. RAW and post-processed DGPS readings along with original source file for each location shall be submitted. As soon as the work is completed, in case to TS, original downloaded file and a CSV file must be submitted along with raw data clearly depicting the occupies station, back station and the co-ordinates in NEZ format.

Specification of TSM Survey Machine

1. Least count should be 1 sec with an accuracy of 5 mm.
2. With proper calibration certificate.

Specifications of DGPS Machine

1. Must be of Dual frequency taking L1 & L2 channels.
2. Must be able to work in RTK mode with Radio connections.
3. Minimum 72 channel parallel tracking receiver.
4. DGPS must be activated for receiving both GPS and GLONASS Satellites.

Output of the Mapping: Preparation & Submission of Survey Maps

1. The bidder shall submit key plan of the site in 1:1000 scale. All plans, indicating the contour lines, demarcating all permanent features as mentioned above. Contour Plan with contour drawn at 0.5m interval for specific feature.
2. All the maps and drawings should be prepared in digitized forms using Inkjet / Pen plotter and standard computer software like Auto Cad (latest version) on standard A0 size polyester base film.
3. Contour maps at site – The grids for the survey work shall be established in N-S & E-W direction (Corresponding to magnetic North) and the survey reference shall be spheroid WGS 84
4. The bidder shall submit three hard copies and two soft copies in CD/DVD of all draft reports for review and approval.
5. After approval, specified prints of all the final maps on polyester base film / high quality paper along with two sets in soft format in a CD/DVD shall be submitted.

Drawings

1. All drawings shall be prepared on AutoCAD. The AutoCAD drawings shall have different layers for different features as mentioned above and in consultation with the officer- in-charge.
2. X, Y, Z co-ordinates of all spot / ground points shall be provided in CSV file as directed by Engineer in-charge with point numbers and feature coding as per list of codes given by Engineer in-charge.
3. The drawings should contain the features as given in B.4.

Softcopy

1. All the raw data generated through DGPS/TS survey should be processed to provide the output. All the raw and processed data in forms becomes the property of ASI and must be handed over to ASI. All electronic data should be copied in a Hard disk and given to ASI.

2. No interest will be payable on the amount of the EMD. The EMD of unsuccessful bidders shall be returned without any interest on finalization of tender, through Speed Post/Registered Post with letter clearly indicating that the Demand Draft is released. If the unsuccessful bidder desires to collect the same through some other means he may inform in writing and in advance.
3. EMD of the successful bidder shall be returned on submission of performance security deposit of Rs. 2.00 Lakhs (Rupees Two Lakhs only) in the form of Demand Draft / FDR/Bank Guarantee.
4. If the successful bidder withdraws his bid in writing or fail to undertake the work within the stipulated time as mentioned in the supply order or did not submit the Performance security, his EMD will be forfeited.

Performance Security Deposit

1. The successful bidder should give an undertaking that the data observed and submitted are genuine, accurate and are not interpolated. High level of accuracy of data, which should only be empirical and not interpolated, is expected, binding on the bidder and he should ensure the same.
2. The successful bidder must deploy the instruments and manpower to initiate the work within the stipulated time.
3. The performance will be evaluated by an Experts Committee constituted for this purpose in a given schedule of time. If the Experts Committee is of the opinion that the standard of data generated by the bidder is below standard or inaccurate or arbitrary, the work order will be cancelled and the performance security will be forfeited.
4. The Experts Committee will devise its own method of verification of data submitted by the firm and the decision of the Committee is final and binding on the firm. The data generated may also be checked and verified by an officer deputed by this office on day to day basis.
5. The successful bidder shall be required to submit performance security of Rs. 2.00 Lakhs (Rupees Two Lakhs only) for the satisfactory performance/completion of the complete order in the form of FDR drawn in favour of the Superintending Archaeologist, ASI, Jodhpur Circle and payable at Jodhpur or through Bank Guarantee in the prescribed format with seven days before the initiation of the work. On the production of performance security the Demand Draft EMD will be returned to the bidder.
6. If the performance security amount is not placed, the EMD will be forfeited.

7. Performance security may be invoked if the firm did not initiate or complete the work within the stipulated time or their work is not up to the standards in the periodic evaluation by Experts Committee.

H. Other Conditions

1. If the successful bidder withdraws his offer or fail to supply the instrument within the time stipulated in the tender/supply order, the EMD will be forfeited.
2. Any bid received by ASI after the deadline for submission of bids prescribed above will be summarily rejected and returned unopened to the bidder at the address mentioned on the outer cover by Speed Post/Registered Post.
3. ASI will not be responsible for any postal delay or non-receipt/non-delivery of the bid. No further correspondence will be entertained on the subject.
4. A bidder cannot modify the bid after the submission. Bidder may withdraw his bid through a written submission to the opening authority before the expiration of deadline prescribed for submission of bids.
5. Bids shall be valid for 120 days from the date of opening. ASI holds the right to reject a bid valid for a period shorter than 120 days as nonresponsive without any correspondence.
6. ASI reserves the right to accept any bid, and to cancel / abort the Tender process and reject all bids at any time prior to award of contract, without thereby incurring any liability to the affected agency or agencies, of any obligation to inform the affected agency of the grounds for ASI action and without assigning any reason.
7. The bid shall be submitted in the form of printed document. Bids submitted other modes or in unsealed envelopes shall not be entertained.
8. Any effort by a bidder to influence ASI in its decisions on bid evaluation, bid comparison or award of the contract may result in the bid rejection.
9. No pre bid meeting will be held. However queries will be answered through e mail/ telephone only.

I. Delivery Schedule and Penalty

1. The successful bidder will initiate and complete the work within the stipulated time. Any delay in initiation or completion will be allowed at the sole discretion of the Superintending Archaeologist, ASI, Jodhpur Circle. If the request is rejected, the work order may be cancelled or penalty may be levied.
2. At the discretion of the ASI, any delay beyond the approved time limit, will invite a penalty @ 0.2% of the order value per day of default. This amount will be deducted from the invoice.
3. The work will be checked at the field condition by ASI officials and Expert Committee for accurate performance.

J. Payment

Calculation of Surveyed Area

1. Since the area of the fort is not well defined and highly irregular, the payment will be made on the basis area calculated from the final drawing.
2. In this the area bound by the fortification wall on the top of the hillock alone will be taken.
3. The area calculated by the successful bidder may be submitted to experts from an external agency for verification. The decision arrived at by the independent expert will be final and binding on either side.
4. However, 15% addition will be permitted to offset the cost included in the survey of the roads leading from bottom to top and for the simple survey of foothills and the contouring of slopes as mentioned in the scope of work.
5. The payment will be released after the completion of the work in all respects. Part payment will be considered on the recommendations of the Experts Committee/evaluation of the data generated by the Department officials. The quantum will be decided by the ASI and there will be no negotiations on this aspect.
6. The payment will be made through a Demand Draft or remitted to the bidders account through NEFT/RTGES on production of a mandate form from the Bank within reasonable time.
7. All statutory deductions like TDS will be done as per rules.

K. Arbitration

1. All disputes or differences, including the claims for damages and compensation whatsoever, arising between the parties, out of or relating to the construction, meaning, operation or effect of this agreement or the breach thereof shall be settled amicably. However, if the parties are not able to resolve them amicably within a period of 15 (fifteen) days, the same shall be resolved by arbitration in accordance with the Arbitration and Conciliation Act, 1996. The dispute may be referred to arbitration by either party only after notice in writing to the other, clearly mentioning the nature of the dispute/differences. Such arbitration shall be conducted by an arbitral tribunal consisting of three arbitrators one arbitrator to be appointed by each Party, and the third arbitrator to be nominated by Director General, Archaeological Survey of India, Government of India. The Arbitration and Conciliation Act 1996 or any statutory modification thereof shall apply to the arbitration proceedings and the venue for the arbitration proceedings shall be Jodhpur and courts at Jodhpur shall have exclusive jurisdiction. All the arbitration proceedings shall be carried out in English language.
